Natchez British Car Exhibition Oct. 18

We had a great day in Natchez with clear skies and mild temperatures. Cappy Stahlman of Natchez let the club have his lot at the corner of Broadway and State streets just a block away from the balloon fest. What a site for our show!

Meredith and Terry Trovato brought out coffee and biscuits, donuts and cinnamon rolls in the morning. Later she had tamale pie, rotel dip, sausage, salsa and lots more. Oh yeah, we did have some british cars there as well. I got carried away with the wonderful array of goodies for our enjoyment. Our club really knows how to have a party.

About a dozen cars that included two MG Magnettes, MGBs, Sunbeam Alpine, Jaguar E type, Austin Healy, and Gordon Keeble attracted many on lookers. It was a treat to have such a combination of good friends, interesting cars and a terrific location.

Many thanks to the Trovatos and Cappy Stahlman for hosting what I hope becomes an annual event for the EMC. Thanks again!

NEW MEMBERS

Terry Trovato has really been busy as he has brought several new members to the club. John Christian, Chuck Daniels, Linda Webb, and Paul Verneuille all are now a part of the EMC. Terry says they are all MGB drivers. Welcome and please take part in more club activities.

How about some of the rest of us search out some member prospects? New ideas and cars are always welcomed.

Jaguar Cylinder Head Removal, Foot Shuffle and Bull Session

Keith Anderson in Brandon says to come on over to his house on Sunday, November 16 around 2:30 and help see what the inside of his cylinder head looks like. I plan to be there and learn something.

Show Report

John Simmers brought back a second place from the recent show in Montgomery as well as a first place effort in Memphis.

Terry and Meredith Trovato placed second with their Sunbeam Alpine at the Jaguar Club of New Orleans concours in the open class. I wanted to attend but had conflicts. The show was in the St. Francisville area. Pretty homes to see there.

Christmas Party on December 13

Come join us as we celebrate at the home of Keith and Pat Anderson at 122 Langford Dr. in Brandon.

Plan to arrive around 3:00 and bring something to share. For more information call Keith at 601-829-2573.

As usual kids are welcome too. Bring those English cars out for a holiday drive.

Jaguar MkII Overhaul on Schedule

I plan on starting the engine rebuild in a week or two. Crowe Engineering (the traveling Jaguar mechanic) will be in Vicksburg to do the rebuild. Stuart, a factory mechanic will do the work at my warehouse.

If you are interested in coming to watch or to help or get in the way give me a call. 636-4545 during the day.
